

3. COMMIT TO A FUTURE DIRECTION > MISSION, VISION & VALUES

MISSION

Our mission is to support management teams with process tools, coaching and training to develop and implement plans for growth.

VALUES

We respect the the missions of our client organizations. We use visual methods to encourage active listening and management dialogue as plans are developed. We appreciate our client and referrer relationships.

VISION

Our vision is for privately-held businesses and not-for-profit organizations to become more important sectors of America's economy. They bring jobs and essential services to our communities and innovation to our markets, often faster and better than larger organizations with much deeper pockets.
